LILY OF FRANCE AND FLORENCE

There are many points of contact between France and Florence, one of which is the lily that represented both France and the Florentine Republic. One is gold on blue, the other red on white, but both derive from the iris flower, a tribute to beauty. The deep cultural influence between France and Florence is also confirmed by their symbols. The lily of France also appears on the Medici coat of arms since 1465, a privilege granted by King Louis XI to Piero de' Medici, the father of Lorenzo the Magnificent.

MLE was founded in Paris in 1986 from Marc Lornat's idea to develop a line of specialized products for the hospitality industry. These products are specialized for specific needs, such as visual comfort, refined design, ease of installation, specific functionality, and ease of maintenance. Always in collaboration with designers, ready to customize an original idea to bring the project to life. All this for 4-star environments and above, but with a focus on value for money.

FROM PARIS

For 40 years, these ideas have been and continue to be our guiding principles, evolving our offerings both technically and technologically, as well as in terms of design. Always with a focus on ease of installation and maintenance, and energy savings, we are also a partner for contractors and hotel owners.

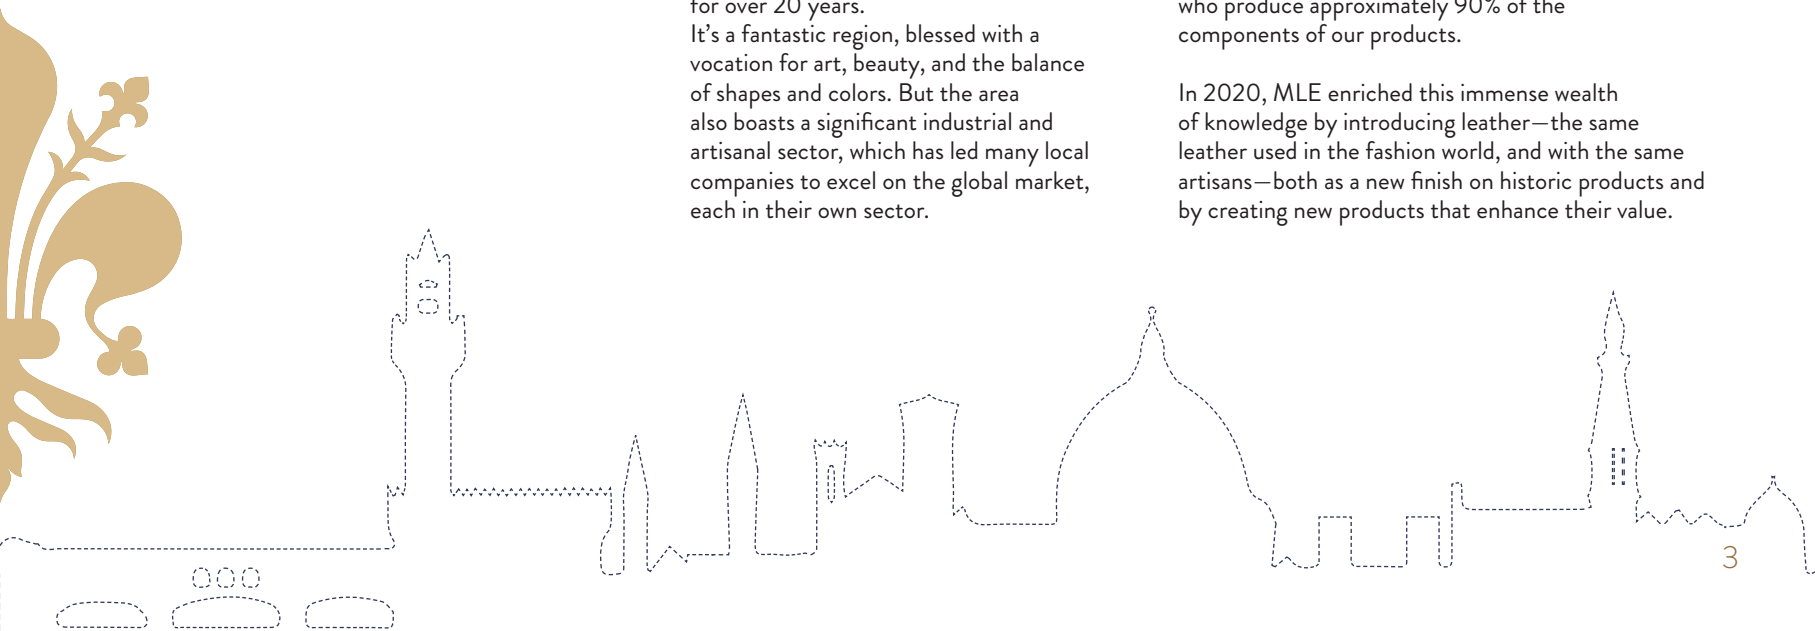

HOTEL VILLA PETRUSSE - LUXEMBURG

TO FLORENCE

From Paris to another capital of beauty: we've been based in Florence for over 20 years. It's a fantastic region, blessed with a vocation for art, beauty, and the balance of shapes and colors. But the area also boasts a significant industrial and artisanal sector, which has led many local companies to excel on the global market, each in their own sector.

Within a 40-kilometer radius of our headquarters, we've selected approximately 400 suppliers who produce approximately 90% of the components of our products.

In 2020, MLE enriched this immense wealth of knowledge by introducing leather—the same leather used in the fashion world, and with the same artisans—both as a new finish on historic products and by creating new products that enhance their value.

FOUR SEASONS GEORGE V - PARIS

A modern hotel room featuring a large bed with white linens and two large white pillows. The headboard is made of dark wood and is illuminated by two circular lights on either side. Above the bed, a large circular light fixture is integrated into the ceiling. The room has a contemporary design with a patterned rug and a small table with a telephone on the right side.
